

Join **WYOBIRD** July 20th at Grand Teton National Park

Join WYOBIRD students & faculty at the UW-NPS Research Station in Grand Teton National Park for a day of tours, activities, and talks about birds across the Americas!

WYOBIRD

Wyoming Bird Initiative for Resilience and Diversity

Bird Tours

Graduate students will lead birding walks suitable for beginner through advanced birders, covering subjects such as beginner ID or identifying species by song! Multiple tours between 8 – 10am.

Crafts and Educational Activities

Join in our activities about bird nests, research methods, bird art, birds to look for in your backyard, and more! Even visit an active field site studying pollination and seed dispersal. Fun for all ages! 10am – 2pm

Picnic lunch

Join us for a free picnic lunch provided by the research station. Suggested donation of \$10. 12pm – 2pm

Research talks

Hear about research being conducted on birds across Wyoming and in the tropics by students and faculty. Virtually experience the sounds of a tropical rainforest! 2pm – 4pm

Details

Saturday, July 20th
8am – 4pm

Where:

UW-NPS Research Station / AMK Ranch in Grand Teton National Park
Visit uwnps.org for more information

Directions:

Enter Grand Teton National Park and proceed north past Colter Bay. Turn into Leek's Marina. Immediately as you enter the Leek's Marina parking area, turn right at the UW-NPS Research Station sign and follow the road one mile to the station.

Come join us for a fun day of learning about birds, research, and more! First 50 people get a free Birds of Wyoming book!
